

STOP WAGE THEFT!

**THIS
CHRISTMAS**

**FORM
A UNION**

...because the chance of 3 ghosts visiting your boss to make him do the right thing is rather slim.

WHAT IS WAGE THEFT?

NOT PAYING OVERTIME, NOT PAYING FOR ALL THE HOURS YOU WORK, NOT GIVING YOU A BREAK, NOT PAYING MINIMUM WAGE, STEALING YOUR TIPS, NOT PAYING FOR TRIAL DAYS...

HOW WE CAN HELP

An injury to one is an injury to all

YOUR WORKPLACE

Workers do everything at work; you create all the profits that the boss gets to enjoy, and yet we have very little power in our workplaces.

Many of the tactics that employers use to cheat workers out of wages may be simply illegal, and it is a matter of holding them accountable. But that is just a short time solution. We can help you leverage that power to make work and life better for all.

YOUR INDUSTRY

The problems you have are likely to be common for many workers across your industry. For example, if you work behind the bar and are being exploited by your boss, the cleaning or kitchen staff are likely being treated the same way. By organising by your industry (rather than your trade) the IWW can connect you with other workers, help you learn from each other and build common strategies based on our union's strongest weapon: solidarity.

YOUR UNION

Workers can gain power in the workplace and make demands together. When faced with wage theft, many of us feel we are alone in challenging the boss and are afraid of losing our jobs. Bosses know this and feel they can get away with anything.

You can help put a stop to wage theft by joining the IWW union. We will help you and your colleagues unionise your workplace and stand up for what is rightfully yours. Join today.
